Garden sprayers
NEW professional series

*We are for You, by You and with You.
For You we want to last and to develop.
For You – our Customers.*

Your satisfaction is our utmost priority. There are numerous satisfied Customers, not only in Poland but worldwide. Your wishes and comments have guided us and will always continue to guide us in our activities. The new and better products constitute the effect of attentive follow up to your needs – the needs of our Customers.

The professionalism of our activities has been appreciated by independent experts in this branch of business. The numerous awards, medals, distinctions and certificates granted to us by various specialist circles are testimony to this fact.

We are proud and extremely happy that our efforts, aimed at our Customers' satisfaction, have been appreciated by the consumers, by the market and by the entire branch.

We have been working on continuous enhancement of the quality of our services for many years and on the improvement of our products. We raise the bar every year. We work hard to be better and better.

Today we want to sincerely thank You. Because thanks to You we are great. We do trust that we will jointly take care of the Kwazar trademark, so that it continues to last and is always associated with high quality and state-of-the-art technology.

Wishing many successes to our Customers, we remain,
Yours faithfully

orion

*An ideal tool
for
gardeners!*

ORIONS SUPER constitute a series of very practical, professional and reliable compression sprayers, with a tank capacity ranging from 3.0L to 12.0L. These durable, multi-purpose garden sprayers turn out to be perfect for plant protection and tending. They are ideal for orchards, horticulture, including greenhouse cultivation, decorative plant nurseries, forest plantations and other nurseries. They are mainly earmarked for the application of liquid agents, including foliage fertilizers and soluble substances providing plant protection from diseases, weeds or pests.

All components of the **ORION SUPER** - series sprayers are made of highly durable and chemically resistant materials. The sprayers are equipped with a safety valve which protects against explosion. High-quality seals and a tank-stabilizing base (a ring) additionally increase safety. **ORIONS SUPER** are equipped with telescopic lances with smooth adjustment of the length (in the range from 0.6 to 1.2m), carrying straps with a shoulder pad, and a funnel with strainer for convenient pouring of chemical agents. A volume scale on the tank enables precise measurement of liquids used.

Designed
for the
toughest of jobs!

super
neptune

The **NEPTUNE SUPER** knapsack sprayer is a professional device for the application of liquid agents that protect plants with protection from diseases, weeds or pests in orchards, decorative and plant nurseries, forest plantations and in all other large-scale gardening and agriculture cultivations.

The **NEPTUNE SUPER** is convenient to use and ergonomic. It is user friendly due to, among other things, a number of features making work more efficient and easier, e.g. it can be operated either with the right or the left hand (the pump). Comfort at work is additionally provided by the tank's thermal insulation from the back and the possibility of individual adjustment of the height of tank suspension.

All **NEPTUNE SUPER** components are made of highly durable and chemically resistant materials. The unique design of the sprayer and the pump unit hidden inside it guarantee safety and constant pressure in the lance, necessary for jobs which require a very precise spraying stream. The **NEPTUNE SUPER** tank of 15 liter capacity does not have any opening below the level of the working liquid which results in it being 100 percent leak-proof. The Neptune has a 1.2m long telescopic lance. The standard kit includes a set of spare parts and a herbicidal nozzle.

super neptune EL

*Now,
spraying becomes
even easier!*

The **NEPTUNE EL SUPER** electric (battery-operated) knapsack sprayer, has a tank capacity of 15 liters, and is used for spraying of all kinds of agricultural and horticultural cultivations with diluted liquid concentrates. It has been created for the most demanding users and for precise applications, thanks to the use of an electric pump.

The **NEPTUNE EL SUPER** is a professional sprayer earmarked for plant protection and tending, in particular in closed facilities (e.g. under covers and in greenhouses) as well as for doing time consuming jobs in orchards, vegetable gardens, decorative plant nurseries and forest plantations and in all kinds of other cultivations. It is earmarked for the application of liquid agents and soluble substances providing plants protection from diseases, weeds or pests.

The **NEPTUNE EL SUPER** sprayers are particularly quiet and efficient. They are equipped with a 12V D.C. electric motor of 36W output, a pump of 1.0L/min capacity and a rechargeable gel battery of 7.2Ah capacity. One battery charge enables approx. 150 liters of liquid to be sprayed out. A visual indicator displays low charge of the battery.

The **NEPTUNE EL SUPER** sprayers are equipped with a 1.2m long telescopic lance, an overflow valve protecting the pump from overloading and an additional protection device preventing accidental switching on during transportation or storage. The standard kit includes a set of spare parts and a battery charger.

It is possible to connect additional elements of specialist equipment to the **NEPTUNE EL SUPER**. The **NEPTUNE EL SUPER** is widely used for jobs in which fault-free operation and efficiency are indispensable.
